### **PUBLIC SERVICE COMMISSIONER SPEAKS IN GADSDEN**

Marc Summers

07-18-2011

In a speech made during the Etowah County Republican Breakfast over the weekend, Southside native and Public Service Commissioner, Terry Dunn says Alabama Power is waiting for some sort of guarantee from Akron, Ohio that Goodyear will remain in Gadsden for five years or more. The utility company is trying to determine the value of switching its Gadsden plant to natural gas from coal. Goodyear is that plant's primary customer. (WGAD)
